**TERMS**—This list cancels all previous offers. Prices herein are net, and subject to no discounts. Articles offered in our retail catalogue and not in this will be supplied to the trade at a discount of 33 1-3 per cent. Accounts are due upon delivery of goods unless otherwise agreed upon.

For boxes, packing, etc., we make no extra charge. It is advisable to ship perishable plants by express. If plants of this nature are ordered by freight they must travel solely at the purchaser's risk. We advise, however the shipment of large lots of cactus by freight, except in hot weather. It is often cheaper to forward small packages of plants by mail, in the United States only. Always state plainly how goods shall be shipped, with any necessary information in regard to route, destination, etc.

### **HARDY CACTI.**

See our retail catalogue for full information, descriptions and illustrations of this new and valuable group of hardy plants.

**SPECIAL** introductory offer.—So confident are we that a trial of the hardy cacti will positively demonstrate their value, that we offer to send prepaid, in

the United States only, a collection of ten representative sorts, each one labeled, upon receipt of one dollar. We request payment in advance unless ordered with other stock.
